12/6/26 Our Early Years children had a fantastic time on their recent visit to Harestock Primary School for a special farm experience. They enjoyed meeting a range of animals and showed great care while gently stroking the goats and guinea pigs, as well as helping to brush the donkeys.

The excitement continued with a visit from a tractor, kindly provided by Sparsholt College. The children were full of curiosity, asking thoughtful questions about how it works, before creating detailed drawings of the John Deere tractor back at school.

It was a wonderful hands-on learning experience and a memorable day for everyone involved—thank you to all who helped us.
