

Year Group News Year 4

Class News

12/6/26 Over the past two weeks, Year 4 has been busy with a range of exciting learning experiences across the curriculum. In science, we have begun exploring the water cycle and have set up an experiment to observe it in action, helping the children understand evaporation, condensation and precipitation in a practical way. In geography, we have been learning about Brazil, comparing its climate, landscape and culture to our own city of Winchester, which has prompted some thoughtful discussions.

In English, the children have worked hard to complete their rainforest-themed poems, showcasing their creativity and descriptive language. We have also started an engaging new class book, Race to the Frozen North, which the class is thoroughly enjoying so far. In maths, the children have continued developing their skills at telling the time and thinking about using it in their daily lives.

17/7/26 What a fantastic end to another wonderful year! We are incredibly proud of all the children for their enthusiasm, resilience and hard work over the past few weeks. They have continued to embrace every opportunity with smiles and determination. One of the highlights has been designing and making their own soft toys, where they demonstrated excellent creativity and sewing skills. The children also produced some stunning rainforest artwork inspired by the artist John Dyer, using vibrant colours and imaginative ideas. Cherry Class thoroughly enjoyed their swimming sessions, building confidence and developing their water skills each week. The recent inter-house rounders competition was another great success, with everyone showing excellent teamwork, sportsmanship and encouragement towards one another. It has been a pleasure to watch the children grow in confidence, independence and kindness throughout the year. We would like to thank you for your continued support and wish all our families a happy, relaxing and well-deserved summer break.
