Little food explorers

Fun food sessions for children aged 4-11 in Winchester

Meet the trillions of tiny helpers running your body — and learn how to keep them thriving. Your gut is home to trillions of microbes that rule everything from energy to mood to immunity — and what you eat decides whether they thrive or struggle. 🍌 **What We Learn:**

- ✓ The science of gut microbes — and why they're so important
- ✓ Eating the rainbow: which foods fuel a thriving gut (and which don't)
- ✓ Reading food labels like a pro — spotting what's really inside
- ✓ Where food comes from, farm to plate
- ✓ Real cooking skills — turning nutrition knowledge into meals they're proud of

Kids don't just learn facts — they learn to take charge of their own health, one meal at a time.
