Year Group News Year 4

Class 20/11/26

We've vikinged our way into the second half of term in year 4 (and yes, Viking used to be used as a verb - you could go viking, so our Viking visitors informed us in the first week back).

The children looked amazing all dressed up and were enraptured by the stories and retellings of battles and myths from ancient times.

We continued the history theme by, finally, making our trip to 878AD and Winchester Museum last week - and once again the children enjoyed a thoroughly immersive experience in our current history topic.

Practice for our Cathedral Crescendo is coming on apace, with all of the songs sounding beautiful within our classrooms - imagine how they will sound in the Cathedral - you don't have to imagine - we look forward to seeing many of you watching our performance.

We've immersed ourselves in a new book in English, 'Odd and the Frost Giants', which has really grabbed the children's attention. Multi-skills has been our focus in PE - with the children using the skills they've learnt to design their own game that will be shared with others in the coming weeks. We've even managed to fit in a little RE, a little dodgeball and begun the journey into sound in science.
